

Prof. Dr. Pascal Kienlen-Campard, PhD
Professor in neuroscience and molecular biology
University of Louvain

Name	:	Kienlen-Campard	First Name: Pascal
Adress-lab	:	Institute of Neuroscience IoNS/CEMO, UCLouvain Av Hippocrate 53 bte B1.53.02 B-1200 Brussels Tel: 32-2-764 93 35 E-mail: pascal.kienlen-cmaprd@uclouvain.be	-home: rue des Coteaux 305 B-1230 Schaerbeek Belgium Tel: 32-2-310 97 62
Date of birth	:	April 20, 1968	Place of birth: Rouen
Nationality	:	French	

Education

Bachelor in Biology, University of Strasbourg, France	1988
Master in Biochemistry/Molecular Biology, University of Strasbourg, France	1991
Qualified teacher (aggregation) in Biochemistry/Molecular Biology, French Ministry for higher Education	1994
Post-graduate (DEA) in Pharmacology/Pharmacochemistry	1995
Ph.D. in Biology, University of Strasbourg, France	1999

Post Graduate Training

- Postdoc Fellow, University of Strasbourg/Biovalley (France/Switzerland) 02/99 - 09/99
- Postdoc Associate, UCLouvain, Department of Physiology, Belgium 10/99 - 09/02
- Research associate, UCLouvain, Department of Physiology, Belgium 10/02 - 08/05

Academic and Institutional Appointments

- Associate Professor, UCLouvain, Experimental Pharmacology Unit, Belgium 01/09/05
- Professor, UCLouvain, Institute of Neuroscience (IoNS), Belgium 01/09/13
- *Group leader* at IoNS, UCLouvain, Belgium 01/09/10 - present
- *Vice-Dean*, Faculty of Pharmacy/Biomed. Sciences, UCLouvain, Belgium 01/09/10 - 31/08/16
- *President of the Institute of Neuroscience*, UCLouvain, Belgium 01/09/201 - present

Postdoc Fellowships and Travel Awards

- Postdoc Fellowship from the Biovalley fund/Société Française des amis des Sciences to conduct research on cell cycle gene regulation in neuronal death (Biovalley/CNRS/University of Strasbourg, France) (01/01/99 – 30/09/99).
- Postdoc Fellowships and Grants of the UCLouvain, UCLouvain Action de recherche concertée (ARC) and BELSPO/Interuniversity Attraction Poles (IAP) for postdoctoral research at UCLouvain. (Belgium) (01/10/99 – 31/08/05 and 01/10/99).

Scientific Awards

- Best Presentation award at the French Society of Experimental Neuropathology, Paris, 4th december 1999.
- King Baudouin Foundation – Aline Prize Fund 2013 (100,000 euro dedicated to a research project).

Peer Reviewing

- Ad hoc for the following journals (~5/year): Journal of Neurochemistry, Journal of Cellular and Molecular Medicine, Cellular and Molecular Life Sciences, PLOS One

Reviewing Grant Applications of: French National Research Agency (ANR, France); International Alzheimer Research Foundation (USA); SAO/FRA Alzheimer Foundation (Belgium); Ligue Européenne contre la Maladie d'Alzheimer (LECMA) and France Alzheimer (France). Member of the EU Joint Programme – Neurodegenerative Disease Research (JPND) Board (as of April 2017).

Member of: UCLouvain Fonds de Développement pedagogique (2010-2014)

Member of the International Action Council UCLouvain (2010 – 2015)

Member of Health Sector Council UCLouvain (01/09/2010 – present)

Member of the Euron Network Board (as of 2010)

Member of the Louvain4Evolution council (as of September 2016)

Obtained Grants (past 10 years)

- 2007-2009: SAO-FRMA Standard award. "Role of transmembrane motifs in APP dimerization and function". Promoter: Pascal Kienlen-Campard.
- 2008-2009: FRNRS Crédit aux chercheurs. "Role of GXXXG motifs in APP dimerization". Promotor: Pascal Kienlen-Campard
- 2011-2012: FNRS Crédit de Recherche CDR 1.5076.12F "New tools to analyze APP dimerization and its impact on APP function". Promotor: Pascal Kienlen-Campard.
- 2011-2012: SAO-FRMA Standard award. "Transmembrane helix association in APP processing and gamma-secretase activity". Promotor: Pascal Kienlen-Campard.
- 2013-2014: SAO-FRA Standard award. "Peptidic tools targeting the transmembrane domain to modulate APP dimerization and Amyloid pathology". Promoter: Pascal Kienlen-Campard.
- 2013-2016: FRME Queen Elizabeth Medical Research Foundation research grant. "Alteration of cholesterol turnover in Alzheimer disease". Promotor: Jean-Noël Octave. Co-promotors: Pascal Kienlen-Campard, Ilse Dewachter.
- 2013-2017: IAP P7-16 'An integrated approach towards understanding the pathogenesis of neurodegeneration (NeuroBrainNet)'. Coord: C. Van Broeckhoven; co-PI of Partner 5 Jean-Noël Octave.
- 2013: FNRS Equipment # 19540444. "Acquisition and update of fluorescence microscope systems for the development of the imaging platform of the Cellular and Molecular Neuroscience division of the Institute of Neuroscience". Promotor: Frédéric Clotman. Co-promotors: Ilse Dewachter, Emmanuel Hermans, Pascal Kienlen-Campard.
- 2015-2019: ARC (Action de Recherche Concertée) EPIMODIS Epigenetic mechanisms of disease. Spokesperson: Charles Desmet. Promotors: Charles Desmet, Olivier Debaeker, Anabelle Decottignies.
- 2015-2017: SAO-FRA Standard award. "Control of GDNF expression by Amyloid Precursor Protein & Presenilins and implications in neurodegenerative and neuromuscular diseases". Promotor/ Pascal Kienlen-Campard.

(Co-)Promotorship of doctorates

- Naouel Ben Khalifa - *Mechanisms regulating the dimerization of the Amyloid Precursor Protein and their role in its trafficking and processing.* October 22nd, 2010. (promotor)
- Salim Hage - *Etude de l'action d'extraits tirés de plantes africaines traditionnellement utilisées en cas de démence, sur le métabolisme du peptide β-amyloïde.* January 15th, 2013. (co-promotor)
- Claudia Marinangeli - *Role of presenilin transmembrane domain interactions in γ-secretase activity and characterization of natural inhibitors.* December 15th, 2014. (promotor)
- Marie Decock - *Role of transmembrane GXXXG motifs in APP dimerization and beta-amyloid peptide oligomerization in Alzheimer's disease.* January 14th, 2016.(promotor)

Currently ongoing

- Remi Opsomer - *AICD-dependent transcriptional regulation in neurons.* Promotor
- Sabrina Contino – *Role of the Presenilins in mitochondrial morphology and function.* Promotor
- Florian Perrin – *Dimeric orientations of APP and pathological functions.* (Copromoter)
- Celine Vrancx – *Pathological properties of A β oligomers.* 2011.(promotor)

Invited Lectures.

- “Folding APP Membrane regions: the shape of Alzheimer’s disease to come”
IPBMC Lecture, Nice Sophia-Antipolis, December 16th 2016
- “Structural features of the extracellular and juxta/transmembrane domains controlling APP dimerization, trafficking, processing”.
Alzheimer’s Association International Conference, Vancouver, July 15-20, 2012
- “Structural requirements for APP processing by gamma-secretase and Abeta oligomerization”.
BIT’s 3rd Annual Protein and Peptide Conference (PepCon 2010)-Lecture. Beijing, March 23rd, 2010
- “APP in Alzheimer’s disease: structure resolves function”.
Conference of the Federative Institute of Neuroscience. Strasbourg, May 11th, 2008
- “Les domaines GXXXG juxtamembranaires et transmembranaires de l’APP contrôlent sa maturation amyloïdogénique ».
9è Réunion Francophone sur la Maladie d’Alzheimer et les syndromes apparentés. Nice, November 20th-22nd 2007.

Prof. Pascal Kienlen-Campard
